Magalie Roman Salas, Secretary Federal Communications Commission 445 Twelfth Street, SW Room TWB-204 Washington, D.C. 20554

Re: Notice of Ex Parte meeting: In the matter of Access Charge reform, CC Docket No. 96-262; Price Cap Performance Review for LECs, CC Docket No. 94-1; MCI Telecommunication Corp. Emergency Petition for Prescription, CC Docket No. 97-250; Consumer Federation of America Petition for Rulemaking, RM-9210; CC Docket No. 96-45 Universal Service.

Dear Ms. Salas:

On Tuesday, March 29, 1999, I met with Yog Varma, Deputy Chief of the Common Carrier Bureau, of the Federal Communications Commission, concerning matters related to the referenced proceedings. We discussed the arguments reflected in AT&T's filings in these proceedings concerning access reform and LEC pricing flexibility. The written presentation used at the meeting is attached.

Two copies of this Notice are being submitted to the Secretary of the Commission in accordance with Section 1.1206(a)(2) of the Commission's rules.

Local Exchange Carriers Access Charge Reform for

Local Exchange Carriers Access Charge Reform for

Access Reform

ATRICS position...

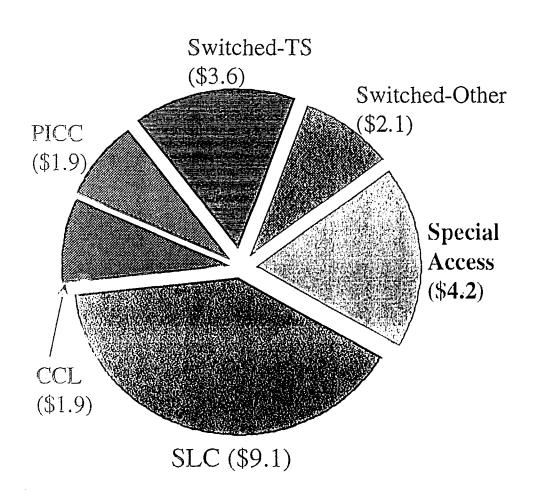

- Competition robust enough to drive down access rates has not developed anywhere in the nation, and the ILECs continue to price at the upper limit in every basket
- The FCC's market-based approach to access reform is not working
- Access charges must be reduced to cost before RBOC 271 entry

Access Reform Update and Refresh Record

AT&T's position continued....

- The FCC should prescribe that Access rates be set at Economic Cost using FLEC principles
- The FCC should increase the X-Factor to reflect interstate only data, rather than total company productivity data

Access Cost By Major Categories -- All Price Cap Companies

<u>In Billions (\$)</u>								
•	SLC	\$	9.1					
•	CCL	\$	1.9					
•	PICC	\$	1.9					
•	Switched-TS	\$	3.6					
•	Switched-Other	\$	2.1					
•	Special Access	\$	4.2					
T	Total All Companies \$22.8							

Price Cap Companies

(Rate of Return by Basket) (1997 - Base Year)

	Common Line Basket	Switching Basket	Trunking Basket	Total
Price Cap LECs	8.88%	45.16%	15.29%*	15.09%*

^{*}If Special Access is removed the Rate of Return would be higher.

Price Cap Regulation-Reinitialization of Interstate X-Factors

Reinitialize	Current	Reinitialize	Reinitialize	Reinitialize
to:	X=6.50%	to 8.40%	to 9.30%	to 10.20%
July 1998	N/A	(\$442)	(\$651)	(\$860)
July 1997	N/A	(\$886)	(\$1298)	(\$1765)
July 1996	N/A	(\$1320)	(\$1947)	(\$2565)
July 1995	(\$370)	(\$2029)	(\$2952)	(\$3781)

Impact of Lowering the Switching Basket to a lower Rate of Return is:

Switching Basket ROR

Access Reduction

45.16%* 11.25% 10.00% 9.50% \$0.00 \$2.04B \$2.11B

\$2.14B

* Equals the Switching Basket ROR for 1997

Industry Contribution Analysis Non-Rural Only

Contribution from SLC									
Company	Contribution Per Line Per Month (\$)	from SLC Annualized (\$ Millions)							
Total RBOCs	130,779	\$3.19	\$4.86	\$1.67	\$2,616				
All Price Caps	162,302	\$3.41	\$4.83	\$1.42	\$2,771				

Industry Contribution Analysis -- Price Cap ILECs Only Contribution from Interstate Switched Access Carrier Rates

	1988 Total Estimated Switched	Switched Acces		Contribution from Access Per Access Annualized		
Company	AMOU (Millions)	Economic Cost* (Blended HAI)	ILEC Rates** (as of 1/1/99)	Per Access Minute***	Total (\$M)***	
Total RBOCs	417,014	\$0.00255	\$0.01454	\$0.01199	5,001	
Total All Price Cap	510,770	0.00305	0.01586	0.01281	6,545	
Plus PICC Charges					1,865	
Less USF Flowback					791	
Total Contribution with PICC and		without Flowback			7,619	

Notes:

^{*} HA1 Version 5.0a (*80% Dedicated and 20% Tandem)

^{**} Switched Access Unit Cost without PICC Charges and with USF Flowback

^{***} Includes USF Flowback of \$791 Millions

The ILEC's USF assessment (obligation), should be removed from Interstate Carrier Access charges. This would reduce carrier access charges by over \$800M.

ILECs should recover this obligation directly from their end user (retail) customers.

Access Reduction Interstate Non-Rural

If the current Mutual Compensation Rates* are used as a Proxy for Interstate Access Cost/Prices, we estimate this would still produce a reduction of over \$5B in interstate switched access cost.

^{*} Mutual Compensation rates for Ameritech, Bell Atlantic (Excluding Nynex), BellSouth, Pactel are .544¢, .439¢, .412¢, .373¢ per minute, respectively.

Conclusion...

There are no implicit subsidies in Interstate Access Charges which support USF for Non-Rural LECs.

These monopoly access profits result from:

- 1. Excess earnings measured against their current cost of capital and current investment on the books
- 2. Investment on their current books is overstated based upon recent FCC audits.
- 3. Misallocated costs between regulated versus unregulated services.
- 4. Investments in international ventures
- 5. Misallocation of cost between retail versus carrier to carrier service.
- 6. Excess/Inefficient Plant.
